

Layne  
CORNHILL  
PHOTOGRAPHY

Hello, my name is  
Faye and I am  
a Fine Art Wedding  
Photographer based in  
Buckinghamshire.

*i love being a photographer*

Even from an early age I loved photography, first picking up a film camera aged 10. Shooting on film and digital cameras, I create dreamy, elegant, timeless images that evoke memories for you, for years to come. I love the romanticism and beauty of fine art imagery.

Making you feel comfortable and relaxed is vital when creating beautiful images, so my open and warm approach is key. Creating a bond with you is how I understand what you want from your day, enabling you to trust me with the most important day of your lives.

So please, if you are looking for a natural, relaxed and experienced photographer and would like to talk more about your special day, please get in touch.

I live in beautiful sleepy Buckinghamshire but travel all over the UK and Europe to document your love story.

“

Faye is so talented we knew from the moment we met her she was the one! She is bubbly and fun and a delight to have around on the day. She made everyone feel very comfortable and relaxed and she just fitted right in. We absolutely love our photographs – they speak for themselves. I feel she perfectly captured the laughter and love we felt on the day

- Isabel & Caleb

“

I instantly knew I wanted Faye to shoot our wedding. Her portfolio of work is stunning but, most importantly for me, she is a very warm person and I knew I would be comfortable with her on the day. On our wedding day Faye was absolutely incredible, from putting everyone at ease when having their picture taken to capturing some really very special candid moments (and even helping me button up my dress for our first dance)! I couldn't recommend Faye highly enough, she was an absolute star on our special day!

- Gabriella & Freddie

# FAQ

*How can we book you?*

Booking is simple and easy. I have a booking form for you to complete. I also take a £500 deposit to reserve your date. The balance is due 2 calendar months before the wedding.

*What camera do you use?*

I predominantly use a Nikon D750 with a wide range of lenses. Of course I also carry backups of my cameras and lenses.

*How many photographers will be there?*

For Collections 1 and 2 I will shoot alone. For Collection 3 I will bring my assistant. You can of course add an additional photographer to Collections 1 and 2.

*How would you describe your style?*

I describe my style as fine art. I use natural light where possible to produce soft glowing images that tell the story of your wedding day. I love soft pastel tones in my images. I also incorporate elements of candid photography to ensure I capture all of the special moments of your day.

*How far in advance do we need to book?*

I advise my clients to book their wedding photographer as soon as they confirm their wedding date. I shoot a limited number of weddings per year so early booking helps to avoid disappointment.

*Do you edit the photos?*

Yes, I edit all of my digital photos to ensure a consistent look and feel. I edit using Photoshop and Lightroom.

*How many photos will we receive?*

Usually my clients receive around 600 high resolution images. These are usually ready within 4–6 weeks.

*How far will you travel for my wedding?*

I will travel as far as a wedding takes me! Travel costs are associated if the wedding is overseas or more than 50 miles from Great Missenden. Please get in touch for a bespoke travel quote.

*Are you insured?*

Yes, I have public liability insurance to £2 million.
